Rating Methodology

SAHA's methodology for rating the degree of compliance with the Principles of Corporate Governance is based upon the CMB's "Corporate Governance Principles" released on January 2014.

The CMB based these principles on the leading work of The World Bank, The Organization of Economic Cooperation and Development (OECD), and the Global Corporate Governance Forum (GCGF) which has been established in cooperation with the representatives of the preceding two organizations and private sector. Experts and representatives from the CMB, Borsa Istanbul and the Turkish Corporate Governance Forum have participated in the committee that was established by the CMB for this purpose. Additionally; many qualified academicians, private sector representatives as well as various professional organizations and NGOs have stated their views and opinions, which were added to the Principles after taking into account country specific issues. Accordingly, these Principles have been established as a product of contributions from all high-level bodies.

Certain applications of the Principles are based on "comply or explain" approach and others are mandatory. However, the explanation concerning the implementation status of the Principles, if not detailed reasoning thereof, conflicts arising from inadequate implementation of these Principles, and explanation on whether there is a plan for change in the Holding's governance practices in future should be mentioned in the annual report and disclosed to public.

The Principles consist of four main sections: shareholders, public disclosure and transparency, stakeholders, and the board of directors.

Based on these Principles, the SAHA Corporate Governance Rating methodology features around 330 sub-criteria. During the rating process, each criterion is evaluated on the basis of information provided by the company officials and disclosed publicly. Some of these criteria can be evaluated by a simple YES/NO answer; others require more detailed analysis and examination.

SAHA assigns ratings between 1 (weakest) and 10 (strongest). In order to obtain a rating of 10, a company should be in full and perfect compliance with the Principles (see Rating Definitions, p.22).

To determine the total rating score for each main section parallel to the CMB's Corporate Governance Principles, SAHA allocates the following weights:

Shareholders: **25%**

Public Disclosure and Transparency: **25%**

Stakeholders: **15%**

Board of Directors: **35%**

To determine the final overall rating, SAHA utilizes its proprietary methodology which consists of sub-section weightings and weightings for the criteria there under. A separate rating is assigned to each one of the main sections as well.

It is declared in the Annual Report that the Board of Directors reviews the effectiveness of risk management and internal control systems at least once a year.

The presence, functioning, and effectiveness of internal controls and internal audit are explained in the Annual Report.

The Board of Directors has taken a decision regarding the approval of the financial statements and the Annual Report, and the Corporate Governance Compliance Report (CGCR) and

Corporate Governance Information Form (CGIF) are included in the content of this declaration.

Insurance and related disclosures have been made to the Public Disclosure Platform (PDP) regarding the damages that the board members may cause to the company due to their negligence during their duties. However, the insurance limit remained below 25% of the company's capital.

Analyzing the Company organization, it is seen that there is no person in the Company who has unlimited authority to take decisions alone and this is considered as positive by us.

4.3. Structure of the Board of Directors:

Company's Board of Directors is composed of 7 members of which 3 hold executive duties. There are also 3 independent members in order for the Board to fulfill its functions more effectively.

The Corporate Governance Committee have prepared a report on the candidates proposed by the Board of Directors and shareholders, by taking into consideration of whether or not the candidate meets the independency criteria, and submitted this assessment as a report to the Board for its approval. CMB criteria are complied with in determining independent candidates. Independent candidates for the Board of Directors have each signed a declaration of independence within the framework of the legislation, Articles of Association, and the CMB criteria.

The board of directors has one female member. In this context, the corporate governance principle's recommendation that 25% of the board of directors should consist of female members is partially met. Furthermore, a target percentage and

timeframe for achieving a minimum of 25% female membership on the board of directors has been established, and a policy is in place to reach this target.

4.4. Conduct of the Meetings of the Board of Directors:

According to the Company's Articles of Association, the Board of Directors convenes as the business and conditions of the Company necessitate. It is mandatory to meet at least once a month.

In this context, the annual report states that the Board of Directors met 47 times between January 1, 2025 and December 31, 2025, and that the Board members regularly attended the meetings.

Chairman of the Board of Directors sets the agenda for Board meetings in consultation with other members and the general manager.

Information on the agenda items of the Board of Directors meeting is made available to the members in sufficient time prior to the meeting date with a coordinated flow of information. Each member is entitled to a single vote.

Shareholders are informed of external duties of the Board members through the agenda of the general shareholders' meeting in which their election is discussed.

The conduct of the Board of Directors meetings and the decision quorum is documented in the Articles of Association.

4.5. Committees Established Within the Board of Directors:

Corporate Governance, Audit and Early Risk Detection Committees are established from within the Board of

Directors in order to fulfill its duties and responsibilities duly.

Functions of the Committees, their working principles, and members are designated by the Board of Directors and disclosed to public on the corporate web site.

All committee members are selected from among independent board members. The Chairman of the Board does not serve on any committees.

With the exception of independent members, care is given that a member of the Board of Directors does not undertake duty in more than one Committee.

Investor Relations Department Manager, Meriç Onargan is appointed to the Corporate Governance Committee as a member. Absence of any other executive members on the Committees is considered positive by us.

All necessary resources and support needed to fulfill the tasks of the Committees are provided by the Board of Directors.

The Corporate Governance Committee is established in order to determine whether or not the corporate governance principles are being fully implemented by the Company, if implementation of some of the principles are not possible, the reasons thereof, and assess any conflict of interests arising as a result of lack of implementation of these principles, and present remedial advices to the Board of Directors. In addition, it oversees the work of the shareholder relations unit.

Audit Committee supervises the operation and efficiency of the Company's accounting system, public disclosure, external audit and internal audit systems, reviews complaints

that are received by the Company regarding Company accounting, internal and external independent audit systems, within the framework of the principle of confidentiality and finalizes them, immediately notifies the Board of Directors in writing on findings related to their duties and responsibilities and the related assessment and recommendations, following taking the opinion of responsible managers of the Company and the external auditor, notifies the Board of Directors in writing on whether the annual and interim statements disclosed to the public is in accordance with the Company's accounting principles, true and accurate.

We are convinced that members of the Audit Committee have the qualifications mentioned in the Communiqué.

The Annual Report contains information on working principles of the Audit Committee and number of written notices given to the Board of Directors within the fiscal period.

The nomination and election process of the external audit firm, taking into account its competence and independence, starts with a proposal from the Audit Committee to the Board of Directors and ends with the Board's choice being presented and approved at the general shareholders' meeting.

The Early Risk Detection Committee carries out its tasks towards early detection of risks which may jeopardize the Company's assets, its development and progression, and measures taken to mitigate and manage those risks. It reviews risk management systems at least once a year.

The tasks of Nomination and Remuneration Committees are performed by the Corporate

Governance Committee. In this context, we do not yet have a definitive opinion on whether the Remuneration committee has submitted its recommendations regarding the remuneration to be given to board members and executives with administrative responsibilities. Work on this matter will be closely monitored in the coming period.

4.6. Remuneration of the Board of Directors and Managers with Administrative Responsibility:

The principles of remuneration of Board members and senior executives have been documented in writing and submitted to the shareholders as a separate item at the general shareholders' meeting.

A remuneration policy prepared accordingly can be accessed on the Company's web site. Stock options or performance-based payments are not included in the remuneration package of the independent members of the Board of Directors.

It has been declared that the Company does not lend any funds or extend any credits to a member of the Board of Directors or to senior executives, or grant any personal loans through a third party, or extend any guarantees.

We are convinced that the executives have the required professional qualifications in order to perform the assigned duties and they comply with the legislation, Articles of Association, and in-house regulations and policies in fulfilling their duties.

There have been no cases where the executives used confidential and non-public Company information in favor of themselves or others. There are no executives who accepted a gift or

favor directly or indirectly related to the Company's affairs, and provided unfair advantage.

Insurance covers compensation for damages incurred by the company and third parties due to the failure of managers with administrative responsibilities to properly perform their duties

Furthermore, the orientation process for newly appointed managers is specified in writing in the human resource regulations.

It has been observed that the compensation and other benefits provided to board members and executives with managerial responsibilities are disclosed to the public in collective form in annual report. When the principle of informing the public is weighed against the concerns regarding the protection of personal data that could arise from disclosing such information on an individual basis, it has been determined that the practice of collective disclosure provides sufficient transparency.
